

Ahmad Khalilieh

Phone: 054-6260358 | ahmadfk90@gmail.com | [Github](#) | [Linkedin](#)

Full Stack Developer with a demonstrated history of working on full stack projects. Skilled in **HTML, CSS, JS, Angular, Node.js, jQuery, MongoDB, MySQL** and many other technologies.

Besides, I have a Bachelor's degree in Business Management and Economics from the Hebrew University of Jerusalem.

Professional experience:

Projects:

- **CryptoCurrency World:** CryptoCurrency World is a learning platform where the user can buy/sell crypto currencies with real prices but with fake money. You can think about it as a practice before getting into the real world of crypto currencies trading. [Try it](#)

Technologies used:

HTML, CSS, Angular 6, Bootstrap, Node.js, Express, Passport (Token based authentication), MongoDB, mongoose, Deployed with Heroku (using mLab), Postman

- **Crm-platform:** CRM-platform is a CRM (Customer Relationship Management) system that allows users to view, add and edit customers and companies. This is a very common piece of software used by most companies in the world. [Try it](#)

Technologies used:

Angular 6 (including Angular Materials), Node.js, Express, mySQL, Sequelize, Deployed with Heroku (using ClearDB), Postman, Workbench

- **Typing Hero:** Typing Hero is a platform where the user can choose a lesson (out of 5) and examine his speed in typing. [Try it](#)

Technologies used:

HTML, CSS, JS, jQuery, Handlebars, Font-awesome, bootstrap, Node.js, Express, MongoDB, mongoose
